Hey baby, reach in here and touch some of this blackness
It's some serious shit this blakness
More than just skin deep this blakness
It ain't that kinda shit you can hold in your hand, but you can smell it you can taste hell, you can roll your ass around in this blakness
Jus don go trying to hold it or possess it → its ours we own it or don own this blakness
The remains of what time distance and conspiracy have left us with
This blakness.
